

## For The Upstream Oil & Gas Companies

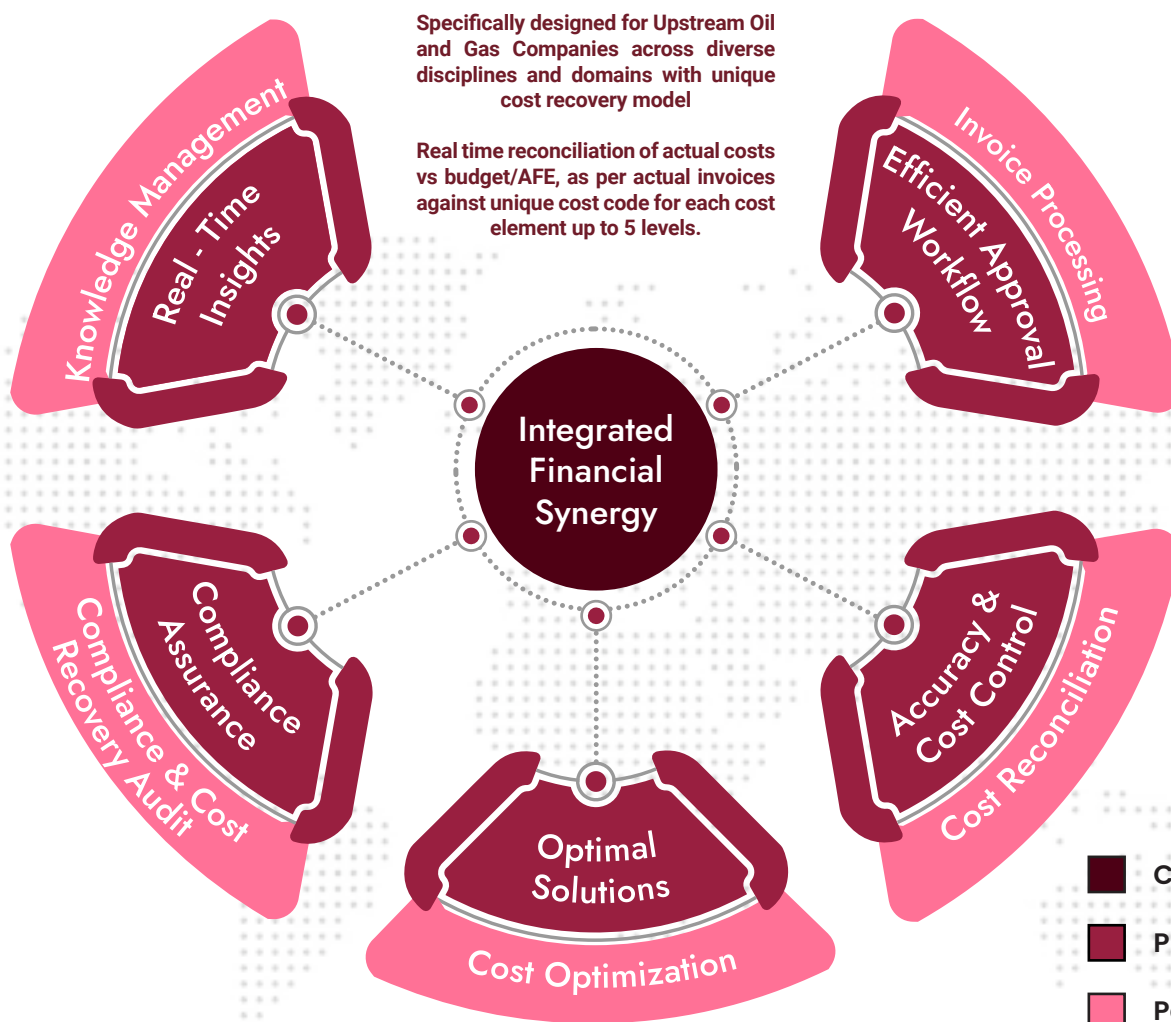

...driving Financial Excellence from Invoice Processing to Insights.

[www.irockfs.com](http://www.irockfs.com)

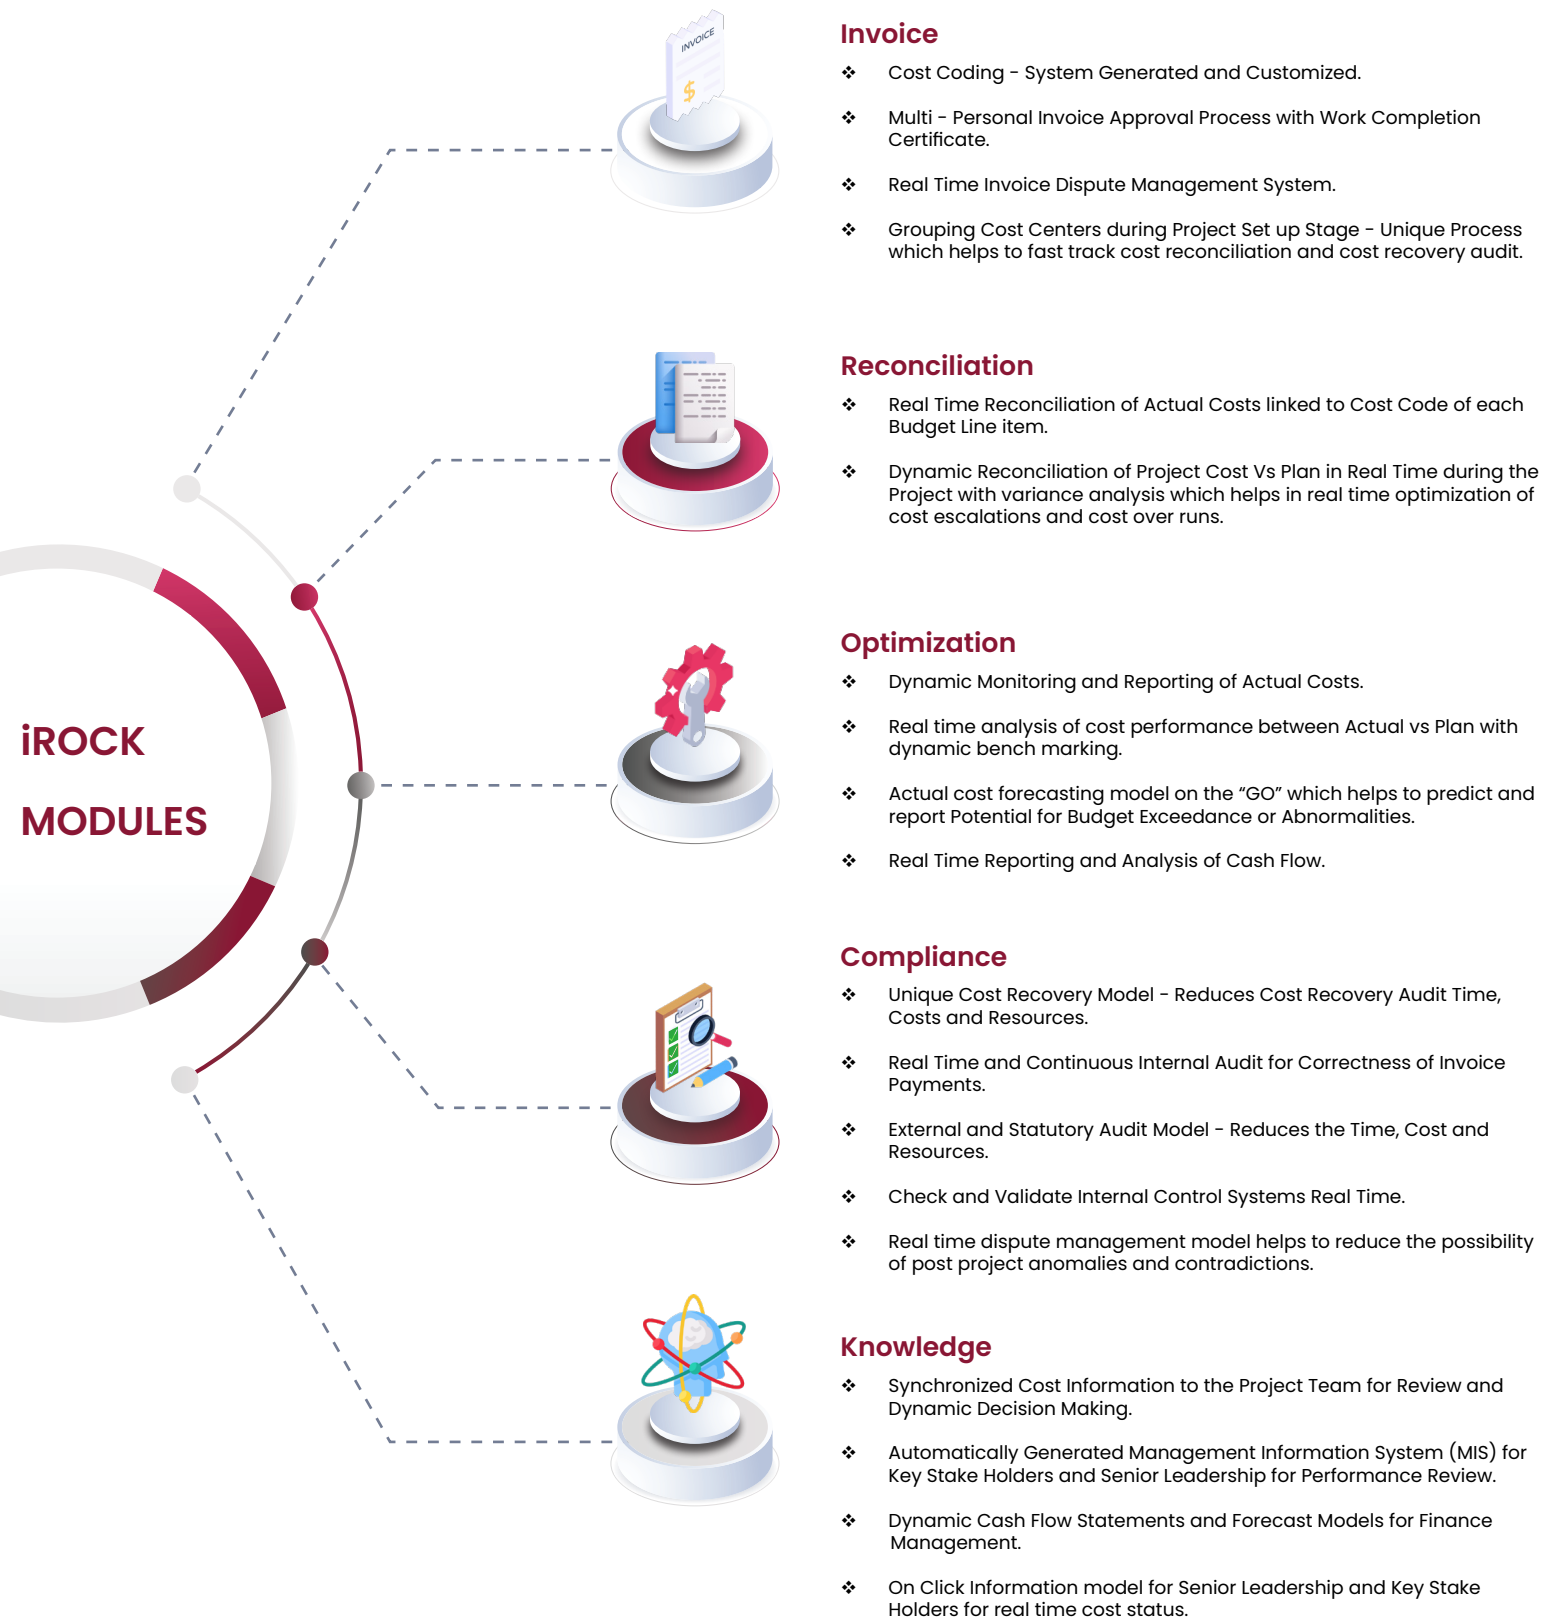

## Unique Challenges of Finance in the Upstream Oil and Gas Industry

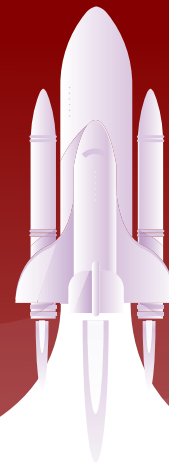

## What We Do? iROCK Value Creation

# iROCK's Integrated Financial Synergy Spectrum

# Begin Your Journey Towards Financial Excellence through iROCK!

## How We Implement and Execute?

Cloud-Based Data  
Management and Processing.

Set-Up and Data  
Migration Services

24 x 7 Back-Office Support from  
West Africa, Middle East and India.

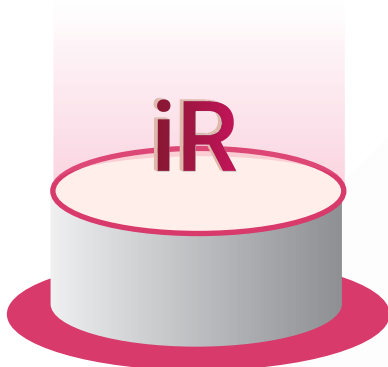

Customization tailored  
to Clients needs.

Onboarding / Training of  
Staff.

As iROCK is a ready for use complete system that was developed with Operator's requirements, the time required to customize and install fully the operational iROCK is less than 4-6 weeks unless the Client needs specific customization. This reduces the installation cost and training the Client personnel significantly.
