Invoice ◆ Reconciliation ◆ Optimization ◆ Compliance ◆ Knowledge
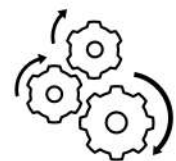

iROCK
APPLICATION

Our Modules

Invoice Module

The Invoice Module ensures better-tracked processing time and faster approvals for invoices. It also provides real- time visibility of invoice status and on-time payment confirmation.

Reconciliation Module

The Reconciliation Module is designed to track actual cost against budgeted cost to mitigate budget shortfalls and correct identified deficiencies

Optimization Module

The Optimization Module will incorporate automation using real time trend analysis to identify gaps in a Project's cost based on invoices received against budgeted costs.

Compliance Module

The Compliance Module works for all types of audits ranging from Internal Audit, External Audit, Service based audit, Vendor based audit, Cost recovery Audit, etc. to ensure compliance is carried out throughout

Knowledge Module

The Knowledge module will work in sync with all iROCK modules to give clear reports and status at any point in time.

License Models

There are two types of License

⭕ Perpetual – One time payment , comes with AMC.
⭕ Corporate Yearly License, must be renewed every year.

Packages
